

UNJUST LAWS

Isaiah 10:1 – “Woe unto them that decree unrighteous decrees, and that write grievousness {which} they have prescribed; {that write...: or, to the writers that write grievousness}”

When our think that saw everything that could be seen in our inexhaustible politics, always appears an innovation. It seems that the deposit of our lovers members' of Congress shameless actions is always ready to be used by the protectors of our national honor and we were, once again, astonished with a new fact.

This time, we were contemplated with the agility of the members of our Camera of the Deputies that, in silencing of the night they joined to approve a ridiculous agreement done between the Brazilian government and the "elders" always very deliberate of Vatican. With a wonderful voting, He decided that Brazil returns to the slavery condition that passed about the Century XVIII. For the good will of our Deputies, we represented among the nations again subdued by the Catholic Church. Of a country with total cult freedom, now we are practically forced to see our children instructed just in the Catholic religion, to see our cities with separate spaces for the construction of such useful temples of only one religion. Worsen of everything it is be not more sovereign enough to already give any other destination to a temple of the Catholic Church existent, as if there was an untouchable piece inside of our city. First they throw our money away, with expenses and more expenses without any usefulness for the people, now they throw the sovereignty of our nation away.

I don't want to condemn the Catholic Church or anybody that is, this is not my function. He would like to have a leadership to be calm when the judgement of God began. Unhappily, for this and many other obscure actions, approved hurriedly in urgency regimes or for secret actions, this is not possible and, my defenseless heart follows lamenting for the opportunities that our rulers lose every day.

God is infinitely larger than our desires and thoughts. He is the only capable to judge with justice that is being done with our Country, that is being every day with accusations and more accusations of attitudes irresponsible arrivals of those that should be our leaders, of those that should guide with our dignity nation heading for the growth, however a growth with dignity and virility.

Jane and Elias – One couple serving the Lord

I leave with you the text that the Lord He told me to give to everybody:

"Poor of you, immodest judges! Poor of you, authorities that do unjust laws, you that don't treat with justice the poor, they steal the ones that already lost almost everything, and they mistreat the widows and the orphans, removing all their rights and doing of them victims. You won't have means of escaping when I bring a terrible punishment from a distance! To who you will ask for help? Where will they hide their stolen treasures? I won't help you; some will end as prisoners, others will be died, but even so my anger won't pass and my hand will continue extended for a new blow."

Each one of you should choose if we want to have God as ally and blesser or as judge. That God has the mercy of us!

See you!

Elias Eloy
